

Stone Kitchen Renovation Testimonial

Just had our third reno / new install from Willetton Cabinets. As always, very professional. Excellent quoting process. Every detail is looked at before there's a review of the quote. Project managed by the owner to perfection. Clear understanding of the build timeline provided by way of the schedule displayed on site. All trades on time and high quality. Care taken to protect the area's not being worked on but used for access. Can't thank Peter and his team enough for the service level and quality workmanship.
